

# VALUABLE OBJECTS TO GIVE AWAY NOW

From your INVENTORY WORKSHEET, list items you categorized as "GIVE AWAY" on the lines below.

For each item, list details about to whom you'd like to give the item, why you're giving the item to the particular person you've chosen and any other additional details worth knowing about the item. Is the item a family heirloom? Does it hold special sentimental value? Actual value? Include this information for each item on your list.

Also, consider writing a letter or card to accompany the gift so the recipient better understands the sentiment or story behind the item. Address the envelope to the person with the name of the item and leave all your cards in a place someone knows where to find them, when needed.
